

NYELETI NEWSFLASH

MAPUTO SPECIAL RESERVE

Nyeleti has been appointed for the design of a number of access roads in the Maputo Special Reserve. This Reserve was originally established to protect the elephant population in the area. The Reserve is considered an important component in the protected areas system of Mozambique as it conserves the exceptional biodiversity of a coastal zone linking marine, coastal and inland components. (www.peaceparks.co.za). Dr Pine Pienaar from the Tshwane office and Rogerio Pave and Saturnino Chembeze from the Maputo office recently visited the site.
